MARY E. BARTLETT MEMORIAL LIBRARY

The Mary E. Bartlett library has increased its services to the community. The library has been able to obtain books through inter-library loans on a variety of subjects and thus filling the requests of our patrons. The State Library has provided us with films for the story hours. We have obtained framed prints and the popular mini-collections (collections of books on popular and timely subjects) from the bookmobile. These are both new and exciting services.

The Friends of the Library have continued to support the library and its programs. The increased attendance in the weekly story hour during the summer resulted in two separate story hours per month throughout the school year. One is scheduled for first, second and third graders, and the other for pre-schoolers. Library service is now being provided to the Rockingham County Home. Library sponsored films are shown at the school with the assistance of the Friends of the Library.

A periodical shelving unit and reference book shelving was purchased with the Florence Corbett Memorial Fund. Plans are being made to use the remaining \$633.68 of the Mary E. Bartlett Memorial Fund for a much needed librarian's desk.

We hope all have noticed the repainting of the book drop. Please feel free to use it when the library is not open.

The addition of a new set of encyclopedias, other reference books, and non-fiction books have improved our reference collection and aided students in their studies.

The display cases changing exhibits by the Historical Society, Keeneborough Grange, Cub Scouts, and collector's have added visual interest to the library.

We wish to thank all those who have given their time and services to the library. The Byrne's family has continued to keep the grounds and their contribution is greatly appreciated.

Report of the Chief of Police

Honorable Board Of Selectmen
Citizens Of Brentwood

It is my pleasure to submit this report for the year 1979.

Wayne Robinson was appointed to the department this past year.

The number of accidents on our highways increased in 1979,
and we had one death.

I would like to take this opportunity to thank the Citizens
of Brentwood, the Selectmen and the Officers of the department for
their cooperation and support during this past year.

The following is a breakdown of the type and number of calls
answered by your department this past year;

Accidents	52	Breaking & Entering	31
Domestic	27	Misc.Calls	205
Assist other FDs	13	Court	62
Fires	13	Juvenile Complaints	16
Escaped Prisoners	3	Prowler	5
Animal Complaints	87	Vandalism	20
Alarms	37	Unattended Death	2

Car accidents and fires	5
Chimney fires	11
Smoke or Gas in building	2
Miscellaneous calls	17
False alarms	17
Mutual aid to other towns	<u>21</u>
Total calls for year	88

Mutual aid calls to Brentwood from other towns = 18

Thanks to the Ladies on the Red Phone who answered over 360
calls last year, 112 fire, 94 ambulance, and 154 others.

Thanks to the men of the Fire Department who donated time and
materials which were equal to the sum of \$1,273.56 at current
prices.

A reminder that a permit is required from the fire department
to install an oil burner.

TO REPORT A FIRE - DIAL - 642-5452

1. Give the LOCATION of the fire.
2. Give your NAME.
3. BE SURE THAT YOU WERE UNDERSTOOD!

BUILDING INSPECTOR'S REPORT
1979

In the year 1979, only 13 of the 22 allowed new dwelling permits were used. The remaining 9 permits will be carried forward into 1980, thus allowing a total of 29 new dwelling permits this year.

Total building permits issued in 1979 was 53. Total estimated cost of construction was \$704,795. This is less than half of the 1978 figure.

Respectfully submitted,

James T. Noland
Building Inspector

REPORT OF THE BRENTWOOD
CONSERVATION COMMISSION.....1979

The Town Forest continues to be our focus, but before describing accomplished work and future plans...a little about the other involvements of the Commission:

1. Participation in ongoing consultative and sharing sessions with the Selectmen, Planning Board, Sounding Board and other Town Groups.
2. The responsibility of viewing Dredge and Fill operations and perc tests.
3. Responding to citizens' concerns such as un-attractive areas of Town.
4. Participation in Public Hearings such as those dealing with discussion of the Route 101 by-pass.
5. Responding to the Sounding Board's major work on "Open Lands" and reviewing the Master Plan's proposed sections related to the Commission.
6. Member participation in meetings such as Southeastern N.H. Regional Planning Comm. (Gardner Ladd); Open Lands and Space Lecture Series (Gardner Ladd, John Fletcher, Jim McGean); Exeter-Rye Greater Area Conservation Trust Group (Barbara Hoffman); Federal Water Policy Implementation (John Fletcher); Flood Control meetings.

The Town Forest:

1979 included three Commission "walks" throughout the Forest for initial survey/inventory work; a clearer understanding of our bounds, featuring the Town Forest at the Brentwood Town Picnic, work projects, and a Forest Survey conducted by State Forester, J.B. Cullen (Division of Lands and Forest, State of New Hampshire).

Landscaping of the Town Office portion of the Town Forest included the planting of trees, temporary seeding, distribution of pine bark chips and clean-up projects.

Selectmen gave the Commission permission to accept donations and to administer funds. This has been especially helpful in receiving monies toward landscaping projects. We have thanked Townspeople individually and through the Brentwood Newsletter.

For the future: Preparations have been underway this winter for major Town Forest Work in the spring of 1980.

Each Commission member has taken on a responsibility such as:

Detailed Work Plan for the Town Forest
Detailed Work Plan for the Town Office Landscaping Publicity
Donations and follow-up related work
Volunteer scheduling
Educational use, etc...

It is our hope that advance and careful planning will give many Townspeople an opportunity to participate this spring in the further development of our Town Forest.

Special thanks and appreciation go to Annemarie Richmond and Letty Hett who have given enormous amounts of energy, time, commitment, and expertise to your Commission. Annemarie has left the Commission because of her family move to Texas; Letty had been our Planning Board representative and left when she assumed Selectmen responsibilities.

We welcome John Fletcher and Barbara Hoffman as new members and Joyce Gove as the new Planning Board representative.

We especially thank Fred Gallant for ongoing, detailed help with landscaping of the Town Office Building, and Cleo Castonguay for help with our portion of the Master Plan.

Great to be meeting in the new Town Office Building!

Your Commission is eager to be aware of the needs of Brentwood and to respond to your hopes for our Community. We have welcomed dialogue through the Brentwood Newsletter and we welcome your presence at upcoming Town Forest spring-of-1980 projects and monthly Commission meetings.

Respectfully submitted,

Richard K. Chamberlain, Chairman
Brentwood Conservation Commission

REPORT OF THE BRENTWOOD PLANNING BOARD

To the Selectmen and the Citizens
of Brentwood

Members of the Planning Board worked very hard this year on preparing the Zoning and Land Use Ordinance Book for reprinting. Many hours were spent in research, typing, rereading, editing, and consultation. Much of this time was over and above the regular meetings. The book has been completed and is available at the Town Office Building.

A great amount of thought and work went into a re-vamping of "Plat and Hearing" procedures for subdivisions with assistance from both Southeastern Regional Planning Commission, and Town Counsel. Hearings were held and the changes incorporated into the book before reprinting. In the fall, information was received from Concord about changes made at the last session in the RSA's concerning subdivision which may have nullified much of that work on regulations. Counselors statewide are unable to agree on interpretation of this new RSA amendment; we, therefore, have a lot of work ahead for this new year in this area alone.

The Master Plan has been edited and is ready for printing, pending funds. This should be available to townspeople before the first of June of this year.

It will be necessary to begin implementation of the Master Plan through the establishment of a Capital Improvement Program, and updating and readjusting Zoning and Subdivision Regulations to align with the Master Plan for the Town of Brentwood.

This is exciting work. Input from the citizens of the Town is needed and desired by your Planning Board.

Respectfully submitted,

Letty A. Hett

SCHOOL DISTRICT MEETING

Brentwood, N.H.

March 10, 1979

The Brentwood School District Meeting was called to order at 7:40 P.M. by school clerk, Marion Arkell. Nominations for moderator pro tem were called for. Mr. William Pottle nominated and Audry Fletcher seconded John Richmond who was elected. Mr. Richmond then proceeded to read the warrant on which the following action was taken;

Article 1. A motion was made by Liz Dodge and duly seconded that the salaries of the School Board and Truant Officer and any other officers or agents of the district be accepted as presented in the budget. The motion carried by a voice vote in the affirmative.

Article 2. John Rice made a motion and was duly seconded that all reports as written in the annual report be accepted. The motion carried by a voice vote in the affirmative.

Article 3. A motion was made by Liz Dodge to see if the District will elect to approve of the inclusion of its 12 month employees in the New Hampshire Retirement System of the State of New Hampshire, which system is provided for by RSA 100-A (supp), for the employees of the Brentwood School District in accordance with Chapter 134 to be effective July 1, 1979. Mrs. Dodge explained that the added cost would be \$288.00 for one twelve month employee. The motion passed by a hand count - yes 34 no 0.

Article 4. Liz Dodge made a motion and was duly seconded that the district raise and appropriate the sum of \$627,651.00 for the support of schools, for the payment of salaries for the school district officers and agents, and for the statutory obligations of the district. Mr. Vahey questioned the increase in this amount from that of \$615,451.00 as stated in the budget. Mrs. Dodge explained that \$6,000.00 is to replace a leaky oil tank. Another \$6,000.00 is for excavation, landscaping, and tarring around the school building so that water will run away from the building instead of toward the building as it does now. A \$700.00 snowblower is also included in this amount. The remaining \$200.00 is for the additional amount needed for a bid on the new school roof. \$26,000.00 is in the budget for a new roof. The School Board is considering a Butler roof which has a 10 year weather tightness and 20 year materials warranty. Anne Marie Richmond questioned as to why a dishwasher was never installed. Mrs. Dodge stated that the School Board voted not to put one in. Clint Stevens stated that he thought the half day a week that the children were dismissed early indicates less teaching

was taking place. Mrs. Dodge explained that previously the school day was 9:00 A.M. to 2:45 P.M. The longer school day is now 8:30 A.M. to 3:00 P.M. to accomodate the early dismissal. Teachers use the time of early dismissal for planning sessions. Warren Brown suggested that the snowblower to be purchased for the school might also be used for the new town building. The main motion carried in the affirmative by a voice vote.

Article 5. John Rice made a motion to see if the district will vote to authorize the School Board to make application for, accept, and expend on behalf of the School District, all gifts, advances, grants in aid, revenue sharing funds or any other funds for educational purposes as may now or hereafter be available or forthcoming from the U.S. Government, the State of New Hampshire or any of its municipalities or any other state, local or federal agency. The motion passed in the affirmative by a voice vote.

Article 6. Article 6 was lost because of lack of motion.

Article 7. Mr. Pailes made a motion to adjourn the meeting at 8:20 P.M. The motion was duly seconded and passed.

Respectfully submitted,

Marion Arkell

BRENTWOOD SCHOOL DISTRICT ANNUAL REPORT
OF SUPERINTENDENT OF SCHOOLS

Public concern about basic knowledge and the basic skills in education is valid. It is agreed we want to develop informed, thinking citizens capable of participating in both domestic and world affairs. The basic skills, or essentials of education become the foundation for all future skills and content learning.

In Brentwood we have made a strong commitment to the basic skills through a mastery program of essential skills and abilities in a continuous progress approach. These skills have been divided into groups of learnings we call levels. As children show mastery of the skills in a level they progress to the next level. It is an orderly approach to learning, and for most children it is a successful means of providing for good learning.

Recent tests of the Brentwood children on a national standardized test has shown that the Brentwood students scored higher on these tests in basic skills compared to national public school norms. In fact most scores were in line with the top quarter for all schools in the country. Much credit must be given to staff and programs.

The Brentwood teachers have made a commitment to follow the continuous progress approach, and I am grateful for their efforts and the obvious results. The school board has been most supportive of the system, and have given staff needed aides, materials and specialists to assist in giving every student an opportunity to use one's full learning potential, and to thus prepare students for the years ahead.

In September the AREA #18 Vocational School will open. Much planning and preparation will have gone into the initial stages in organizing courses, getting materials, equipment, and a qualified staff to handle the wide variety of offerings for students. The Brentwood secondary tuition pupils to Exeter will have additional opportunities beyond the academic areas. It is a pleasure to be able to announce these new vocational subjects. These will meet the needs of a group of students so they can graduate from high school with marketable skills. We should equip those interested with preparation for post secondary vocational training or job entry.

The maintenance of responsible discipline while stressing good character building is an essential which both the school and parents must share. Our schools have been well maintained over the years, and we are certainly blessed by the fact we do not have the problems of the big cities. I feel confident we can maintain a good school program. Costs are constantly rising for the schools as they have for everyone. The local property tax is hit hard. It is a known fact that the State mandates many standards and requirements but does not contribute much to meeting the cost of these mandates. As educators we must bear in mind, and be responsible with our request if we expect the community to continue to support the school budget. Teacher salaries, transportation and tuition both to the AREA schools and for special education take the bulk of the school dollar. Obviously heating bills

are beginning to "cut" into the budget much as it does in your homes. The schools depend on you, the citizens, for its ultimate support through your vote at district meeting. I trust you will view this year's proposals as reasonable.

The principal of Swasey Central School, Harry Mangle, files the following report:

This past year has been a busy and productive one for Swasey School. With the cold and snow of January 1979 came an intensification of the chronic maintenance and repair problems associated with the new back wing (six years old). We experienced water leaking through the roof, water seeping into all six classrooms, malfunctioning classroom and library heating units, and a frozen septic system making one-half of our toilets inoperable. Because of these problems, the physical working and learning conditions for teachers and students last winter were often disruptive and uncomfortable.

Despite these difficulties, our experienced and very able staff of teaching and support personnel continue to offer the children of Brentwood a strong basic education in the areas of Reading, Language and Mathematics. There continues to be a need for Music, Art, P.E. and Library specialists. This past September the school district began to provide speech and language therapy for students with deficits. This early remediation in the vital area of language should preclude more costly services to these children in the future.

Swasey began 1979 with an enrollment of 182 and ended with 193 pupils. The school is currently organized into a primary (grades 1-3) and intermediate (grades 4-6) unit. Included in the primary unit are five classes: two first, one second, one second/third combination, and one third. The intermediate unit includes four classes: one fourth, one fifth, and two sixths.

The shared principal agreement with Newfields is being replaced by an arrangement to hire a principal for the equivalent time of four days. I believe this will be a more positive situation for the school.

We have a conscientious staff and a very supportive parent community. This in turn helps make our school one in which we can be proud.

REPORT OF THE BUSINESS ADMINISTRATOR

Walter C. Pierce, Jr.

There are three areas which have been requiring most of my time and will continue to do so in 1980-81. These areas are: energy management, financial management and budgeting, and maintenance of plant.

Energy conservation is the single most critical component of any of the responsibilities of the Business Administrator. Recognizing this, attempts are being made to increase energy conservation awareness and to improve organizational responsiveness to worthwhile suggestions. Projects which have above average potential for minimizing consumption of fuel and electricity need to be integrated into our plant maintenance planning process. Along these lines, each school building in S.A.U. 16 has been enrolled in the Governor's Council on Energy conservation program. Energy audits have been completed for all buildings and requests for funding engineering analyses have been submitted to the Governor's Council. Regardless of whether funds are granted by the State for engineering assistance, provision for these analyses is being included in the 1980-81 budgets. In addition, maintenance projects with above average energy savings potential are being evaluated.

In the area of financial reports and budgeting the conversion to the Handbook IIR account codes, mandated by the State, has been completed. This year, the format for each school district budget reflects this conversion. In order to take full advantage of these new codes, automation of our bookkeeping and accounting procedures is being planned for 1980-81. Automation means computer and computer means increasing our capacity to analyze costs. It is hoped that the 1980-81 budgeting process and financial reporting will begin to be converted to an automated system during the summer of 1980.

Maintenance of plant is closely allied with energy conservation. Our goals for 1980-81 are to develop a more unified preventive maintenance program, improve the coordination of the maintenance and custodial effort among all districts, and implement procedures which will improve our response time to various project requests.

In conclusion, in the short time I have been in this position, I have been extremely impressed with the dedication and competence of the clerical and custodial personnel. The building principals and their administrative personnel have also spent a great deal of their time assisting me. I would like to express my gratitude to all of these persons for their help and encouragement in these first few months.
